

AHMED ELSHAHAT ATTIA

(+20) 1016011527 | ahmed1522003aa@gmail.com | [LinkedIn](#) | [GitHub](#)

Address: Cairo, Egypt (Open to relocation and remote opportunities compatible with UTC+2 time zone)

Summary

Frontend Developer with hands-on freelance experience in React.js, Next.js, and TypeScript, building real-world applications including a 10+ module business management platform and an expense tracking application. Skilled in responsive, component-based UI development, React Hooks (useState, useEffect), REST API integration, permission-based authentication systems, and Firebase real-time data. Experienced collaborating with remote teams via Git/GitHub, with a strong focus on clean, accessible, and maintainable code.

Experience

Front-End Developer (Freelance) — Sales Management System.

Apr 2026 – Present

- Developed frontend features for a sales management system with 10+ modules, working in a 3-person team alongside a separate back-end developer.
- Engineered responsive dashboards and interfaces for sales, inventory, products, customers, reports, purchases, and employee management.
- Implemented authentication, protected routes, role-based access control, and an admin panel for employee permissions.
- Integrated 15+ REST API endpoints and implemented Arabic/English support, RTL layouts, and Light/Dark mode.

Front-End Developer (Freelance) — Flosy Feen.

Nov 2025 – Mar 2026

- Created 4 core screens for an expense management web app: Home, Expenses, Budget, and Settings.
- Integrated Google Sign-In using Firebase Authentication.
- Designed reusable React components and responsive layouts for desktop and mobile.
- Collaborated with a 4-member remote team using Git and GitHub.

Technical Skills
